ADMIN RECORD

Summary Report for Closure of RCRA Container Storage Unit 460.1

**U.S. Department of Energy
Rocky Flats Environmental Technology Site
EPA ID No. CO7890010526**

1.0 PURPOSE

This Summary Report pertains to RCRA closure activities for the RCRA Container Storage Unit 460.1 in Building 460, and is a requirement of Section 1.1 of the Closure Description Document (CDD) for this RCRA Unit (05-RF-00073). This report contains a description of major closure activities and any deviations from those stated in the CDD and other relevant information.

2.0 DESCRIPTION OF MAJOR CLOSURE ACTIVITIES

Closure activities were conducted under Work Packages 460-004. The secondary containment pans and rollers were packaged in containers X29689 and X36808 and managed as LLM waste.

A Professional Engineer conducted the visual inspection of the floor area of RCRA Unit 460.1, in the highbay of Building 460, and certified closure of the unit via clean closure. There were no unanticipated circumstances or events to cause a deviation from the descriptions in the CDD.

3.0 SUMMARY

The requirements stated in the CDD have been fulfilled.

On March 23, 2005 I performed a visual inspection of the Building 460 highbay area RCRA Permitted Storage Unit 460.1. The unit was very clean and free of any staining that would be indicative of spilled material. A review of the operating history of this unit also confirmed that no spills had taken place in the unit.

I, the undersigned, a State of Colorado Registered Professional Engineer, hereby certify that closure via clean closure of Building 460 highbay area RCRA Permitted Storage Unit 460.1 has been satisfactorily completed.

Professional Engineer seal, signature, and date attesting to closure certification statement:
